NO TO PAY CUTS - NO TO FLEXIBILITY - NO TO PRIVATISATION – YES TO FAIR AND EQUAL PAY NOW

We the undersigned are disgusted that Birmingham City Council are sending out new contracts to Council workers with changes to pay, flexibility and working hours. Thousands of staff are losing pay which impacts on their whole family and the councils package does not deliver equal pay. **We demand that the council withdraw their imposed package.**

The Government should be made to put in the money needed to increase the pay of low paid workers without cutting the pay of others. The government has committed £76 billion to a new Trident nuclear missile system and has so far given Northern Rock £22 billion. The money is there but the Governments priorities are wrong. **We call on Birmingham City Councillors to lobby the government to fully fund the Single Status package.**
